

frozen golden baselines · CI-guarded

Sanctioned figures & provenance

Every published number traces to a public regulatory filing; the sanctioned economics reproduce a frozen reference baseline, CI-guarded so a result can never silently drift from the model it claims.

WHAT YOU GET

- Sanctioned-baseline vs data-derived clearly labelled on every figure
- Deterministic, stdlib-only static build — identical for everyone, every time
- Where data is incomplete, each page says so rather than guessing
