Transportation Safety Board of Canada marine occurrences; United States Coast Guard 1995–2012 recreational boating accident reports, distributed by Data Liberation Project; International Maritime Organization Global Integrated Shipping Information System · data as of: 2025-10-11 (Organization records collated); other source cut-offs not recorded

Vessel foundering analysis

Foundering incidents are grouped to examine reported fatalities and recurring incident patterns. Imported International Maritime Organization records contain no fatality counts; those counts use the Canadian and Coast Guard records.

WHAT YOU GET

- Recorded fatalities per foundering incident
- Cause and incident-pattern distributions
