Bureau of Safety and Environmental Enforcement Oil and Gas Operations Reports; United States Energy Information Administration oil prices · data as of: 2025-05 · pre-tax basis · Price: historical West Texas Intermediate monthly prices; cost: recorded drilling, completion, facilities and operating assumptions

Lower Tertiary economics portfolio

Field-level production and life-to-date cashflow are compared for the selected deepwater Gulf of Mexico reference population. Recorded producing status includes the early-production development; the count does not imply an evaluated return for each field.

7

developments recorded as producing in the reference population

WHAT YOU GET

- Field and well production comparisons with source limitations
- Life-to-date cashflow and net present value at a 10% annual discount rate
