LEASE & LANDMAN

Operator **Beacon Offshore Energy** · WI Beacon Offshore Energy 31% (op) · Navitas Petroleum 49% · HEQ Deepwater (Quantum Energy Partners) 20% · Blocks WR051

LEASE	DEPTH	DEV	STATUS
G25232	5,840 ft	subsea20	— <u>pending</u>
G31938	5,800 ft	subsea20	— <u>pending</u>

Status, dates & per-lease detail pending the [BSEE lease ingest \(#959\)](#).

Provenance: Base facts (operator, capex, plateau, GOR, data through) from in-repo YAML; discovery 2009 (Anadarko Shenandoah-1, WR52), FID/sanction Aug 2021 (Beacon+Navitas), and actual first oil (first of 4 wells online 25 Jul 2025; ramped to 100 kbopd plateau Oct 2025) from public sources — first oil corrected to 2025-07 vs YAML's placeholder 2025-10. Current WI (Beacon 31% op / Navitas 49% / HEQ 20%) post-2021 restructuring. CAPEX 1.8 is YAML-stated and largely reflects pre-development E&A spend (LOW CONFIDENCE for full development cost); OPEX and projected end-of-production, not available (not defensibly sourced); water depth ~5,800 ft.
