BSEE OGOR-A · life-to-date, public data

Shenandoah field economics

Per-well stackup, NPV timeline and critical-operations detail for the Shenandoah Lower-Tertiary deepwater field, life-to-date on public BSEE data (not full-cycle).

WHAT YOU GET

- Per-well and field-level NPV (@10%), breakeven WTI and cashflow
- NPV timeline with drilling/completion operation markers
- Deterministic and regression-guarded by CI on every change
