**BSEE OGOR-A · sanctioned V30 golden baseline**

## Field economics & benchmarking

Per-well, per-block and per-field NPV / MIRR / IRR for the seven Lower-Tertiary deepwater fields, computed from public BSEE production filings and sanctioned against a frozen V30 baseline that a CI test re-checks on every change.

**7**

deepwater fields

**158**

producing wells

**685.0**

MMbbl cum. oil

### WHAT YOU GET

- Life-to-date cashflow, NPV timeline and breakeven per field
  - Price sensitivity (dNPV/dWTI) and MIRR, reproducible to the cent
  - Portfolio roll-up plus cross-field well benchmarking (2010–latest)
-
