LEASE & LANDMAN

Operator **ExxonMobil** · WI ExxonMobil 50% (op) · Equinor 50% · Blocks WR627

LEASE	DEPTH	DEV	STATUS
G20351	<u>— pending</u>	<u>— pending</u>	<u>— pending</u>

Status, dates & per-lease detail pending the [BSEE lease ingest \(#959\)](#).

Provenance: Primary facts (capex \$4.7B, plateau 34 mbopd, GOR 1000, opex \$18/boe, first oil, WI 50/50) from in-repo julia.yml; first oil = BSEE OGOR-A first production (2016-03) per YAML — note ExxonMobil press release states production start April 2016. Operator corrected to ExxonMobil (YAML flagged its "Equinor" operator field as disputed; public record = ExxonMobil-operated, Equinor/Statoil 50% partner). Discovery 2007, FID May 2013, water depth 7000+ ft, Walker Ridge blocks, and Jack/St. Malo tieback from Offshore Technology and operator/trade press. lease year and projected end-of-production not confidently sourced.
